WELCOME

Further education transforms the lives of young people and adults through learning and creates opportunities that some may never have thought possible.

At The Sheffield College, we're proud of the fact that further education colleges in England educate and train 2.2 million young people and adults every year.

Colleges also educate more young people than state funded schools, according to the Association of Colleges, and more large employers train their staff via colleges than via universities.

The Sheffield College is no exception, being one of three anchor education institutions in the city alongside both of the universities.

We know that education drives opportunities and transforms life chances and careers. We are immensely proud to be at the heart of our fantastic city and communities.

Our new Strategic Plan 2021-2025 sets out how we intend to accelerate that via four

key ambitions based on learning, people, partnerships and sustainability.

At The Sheffield College, we focus on careers not just courses. Our students achieve so much more than a qualification - growing in aspirations and confidence and looking to the future with optimism.

The majority of our students are local and are the city's talent pool and employees of the future. We offer a huge range of vocational, technical and academic qualifications to help young people and adults go further from entry through to degree level.

We work with around 2,400 employers and are the largest apprenticeship provider in the city and South Yorkshire Mayoral Combined Authority.

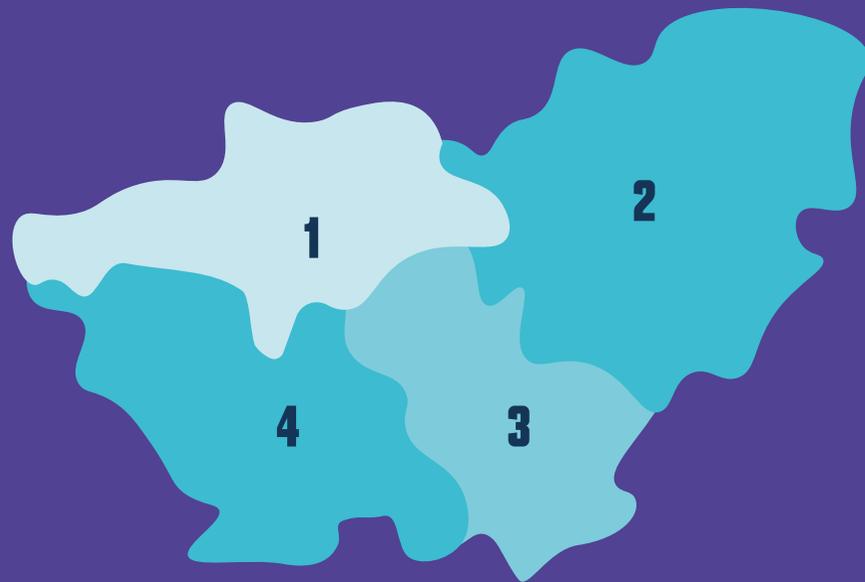

We have made great strides with award-winning initiatives and thanks to the dedication and commitment of our amazing staff - but we are not complacent. We want to achieve more.

Our new strategy demonstrates our students first ethos and commitment to increasing our positive impact on the communities that we serve and being part of the skills-led pandemic economic recovery that our city, region and country urgently need.

OUR REGION AND THE COMMUNITIES WE SERVE

KEY:

1. Barnsley
2. Doncaster
3. Rotherham
4. Sheffield

The Sheffield College is a large General Further Education College in the South Yorkshire Mayoral Combined Authority, providing high quality academic, technical and vocational training to enhance qualifications, skills and employability across the region.

We are very proud of the communities we serve and feel privileged to be an anchor institution in the region. Our students first ethos underpins everything we do and is the driving force behind our mission to transform lives through learning.

- Sheffield has a population of approximately 575,000 and is the third largest English district by population
- Unemployment in the city, including youth unemployment, and the proportion of adults without any formal qualifications is above the national average
- The proportion of workless households is significantly greater than the Yorkshire and Humber average
- The local economy retains a strong advanced manufacturing sector but most employment is within the service sector, particularly in health, social care and finance
- Our student population draws from a wide range of areas across the city but predominantly from areas of significant deprivation
- Of the aged 16+ population in the South Yorkshire Mayoral Combined Authority, 49% are male and 51% female

- The South Yorkshire Mayoral Combined Authority has a slightly younger age profile than the national average, with 15% of those aged over 16 being under 24 years old, compared to 13% nationally
- There is less ethnic diversity in the South Yorkshire Mayoral Combined Authority, with 92.8% of the 16+ population being white, compared to 86% nationally
- A higher proportion of the working age population in the South Yorkshire Mayoral Combined Authority are classed as EA core or work-limiting disabled compared to the national average, with rates particularly high for females
- Skills levels in the South Yorkshire Mayoral Combined Authority lag national levels, with fewer residents qualified to NVQ Level 4 or above and more with no qualifications than nationally
- On average, students who achieve a Level 3 qualification will earn £6,888 a year more than someone with no formal qualifications in the South Yorkshire Mayoral Combined Authority. This equates to approximately £261,000 in higher earnings over a working lifetime

Our mission:

TRANSFORMING LIVES THROUGH LEARNING

Our vision:

By 2025, we will be leaders in technical and academic education, creating exceptional opportunities for the communities that we serve to realise their aspirations.

Our Strategic Plan 2021-2025 clearly outlines our aims and ambitions as a college.

The strategy has four key themes against which progress and impact will be measured:

- Learning
- People
- Partnerships
- Sustainability

KEY THEMES

We are:

LEARNING

Our ambition

To be recognised as a provider of high quality education and training by our communities and partners.

Our intent

We will:

1.1

Help students to 'Go Further,' putting them at the heart of everything we do

1.2

Have high aspirations and a culture of success, through a strong focus on excellence and continuous improvement

1.3

Celebrate and value diversity in a safe, supportive and inclusive learning environment

1.4

Support students to progress well through personalised learning, feedback and assessment approaches

1.5

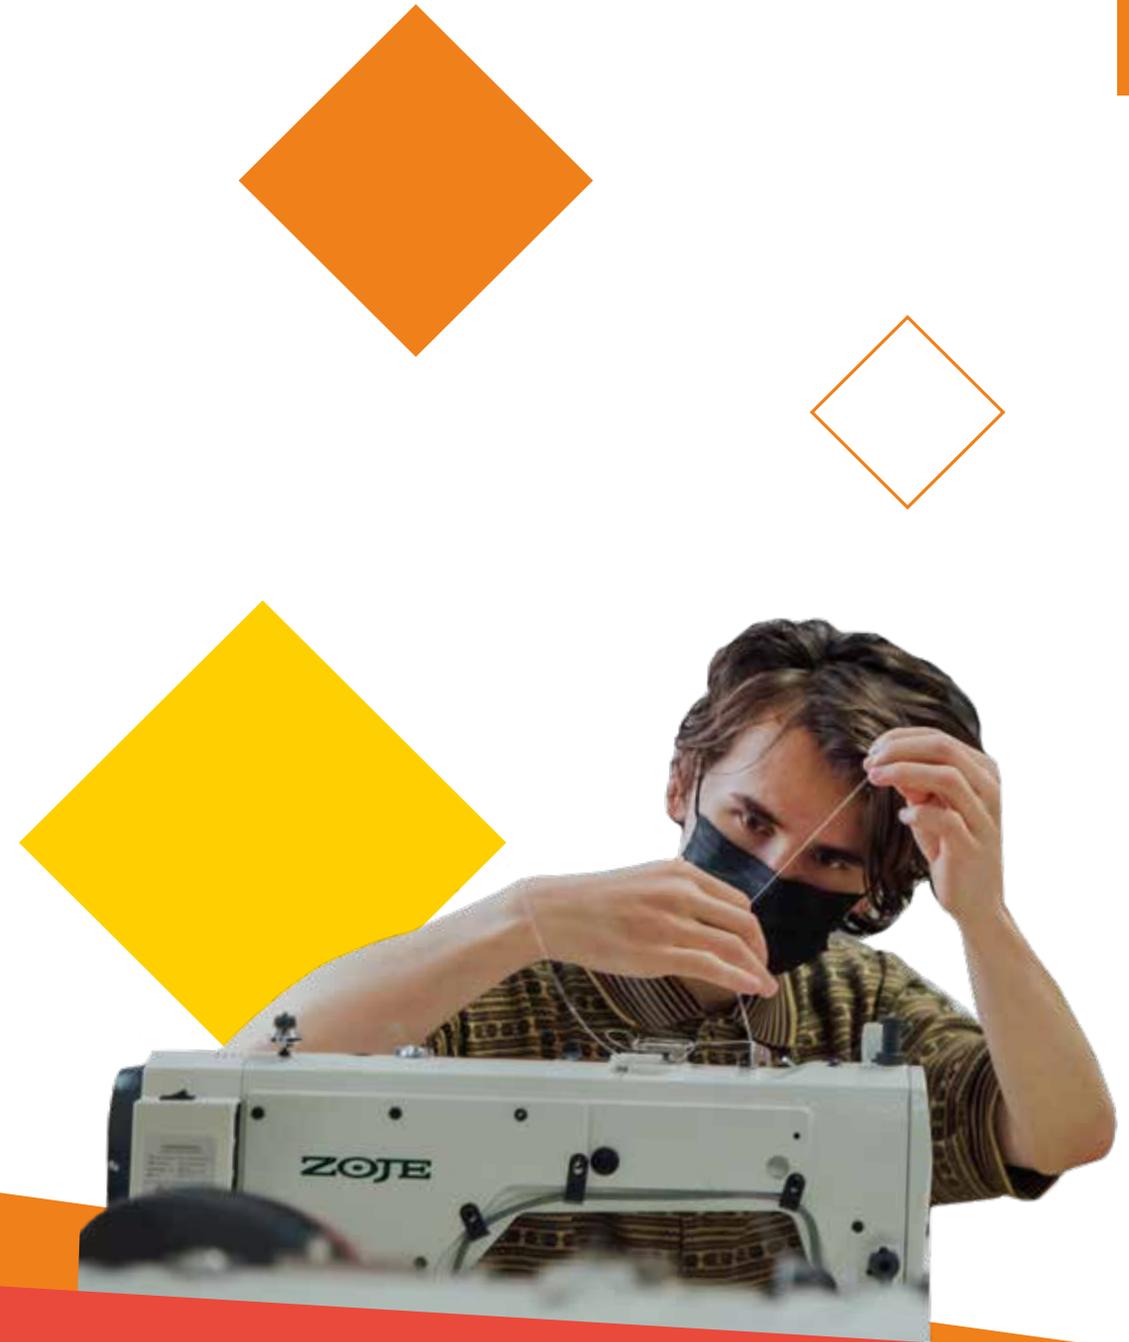

Enable students to achieve their chosen next steps of study or employment, through flexible progression routes in a curriculum that anticipates and responds to local, regional and national priority needs

1.6

Listen to students, so that their views have a big influence on decision making within the college

1.7

Help students to achieve the best possible outcomes, gain industry specific skills, knowledge and behaviours for an ever-changing world

KEY THEMES

We are:

PEOPLE

Our ambition

To be a place where people want to work,
recognised for our inclusive and aspirational ethos.

Our intent

We will:

2.1

Continue to build strong values that are clearly understood and shared by all staff, with a focus on high expectations and continuous improvement

2.2

Recruit diverse and talented people that share our vision and values, through a strong employer brand, attractive job roles and a fair and rigorous selection process

2.3

Support all our people to achieve and maintain their well-being and their best performance, through a clear performance and development framework and continued investment in relevant high quality training

2.4

Support all our people to have a good work life balance through a combination of flexible working options and continuous review of our working practices

2.5

Provide clear career pathways for staff and identify and support talented people to develop and progress within the college, encouraging the development and promotion of minority groups

2.6

Continue to communicate well with our workforce, as well as listening to and acting on their voice - including amplifying the voice of underrepresented groups

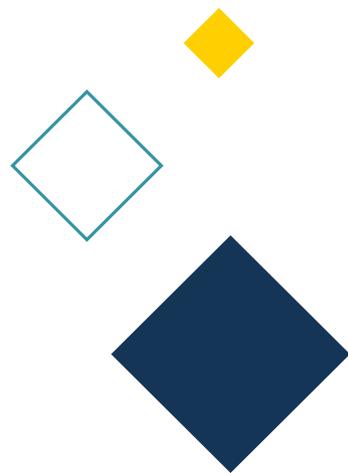

2.7

Reward and recognise all our people in a fair, transparent, but flexible way

CELEBRATING SUCCESS

THE STORY SO FAR ...

The college's **students first ethos** means that we are constantly driving improvements to our estate. More recently this has included the launch of a dedicated space for our Sheffield Sixth Form and the launch of a new campus, Pennine 5, for some of our adult provision

In order to create more learning space for students, we have recently revolutionised the way our Professional Services team works by creating more **flexible and innovative working environments** and changing the way our non-teaching staff work

We are proud to be rated as having **'Good' financial health** by the Education and Skills Funding Agency

The college is currently championing a **new 'Green' curriculum and strategy** which will support environmental objectives across the region and country

£4
MILLION

In partnership with our Local Enterprise Partnership (LEP), we have recently **invested almost £4 million** into our Olive Grove and City Campuses. This investment will further advance our Computing and Engineering curriculums and includes new robotics and automation technology
